Springtime Complimentary Trapshoot 2025

On Saturday, May 11, 2025, the chapter hosted the first of two annual events designed to support members in honing their trapshooting skills. We had two flights of shooters designed for up to 20 shooters. When shooting commenced, we had 16 shooters, each shooting 25 shotgun shells of their favorite gauge from 0.410 to 12 gauge. Shooters, including members and guests, ranged from young to old. After completing the two flights, a lunch was served at the chapterhouse. All expressed their pleasure at being able to shoot in a safe and controlled trap shooting event. We are planning a second event in the fall.

Thanks to all who volunteered and participated in this annual event. A special thanks to the chefs that prepared lunch in the kitchen at the chapterhouse.

It is bigger and better each year!
